NEWS RELEASE

LAYNE CHRISTENSEN REPORTS **FISCAL 2019 FIRST QUARTER RESULTS**

THE WOODLANDS, TEXAS, June 5, 2018 – Layne Christensen Company (NASDAQ: LAYN) (“Layne” or the “Company”) today announced financial and operating results for the fiscal 2019 first quarter (Q1 FY 2019) ended April 30, 2018.

Q1 FY 2019 Financial Highlights

- Net income from continuing operations for Q1 FY 2019 was \$2.9 million, or \$0.14 per diluted share, compared to net loss of (\$4.0) million, or (\$0.20) per diluted share, for the fiscal 2018 first quarter (Q1 FY 2018) ended April 30, 2017. Net income for the Q1 FY2019 period included \$4.6 million in gains on asset sales, primarily within our Water Resources division, as well as \$1.3 million in restructuring expenses related to our pending merger with Granite Construction Incorporated.
- Total Adjusted EBITDA (a non-GAAP financial measure as defined below) increased to \$12.6 million in Q1 FY 2019 compared to \$9.0 million in Q1 FY 2018.
- As of April 30, 2018, cash and cash equivalents were \$17.8 million, and total debt was \$167.0 million. Total liquidity, which includes availability under Layne’s credit facility and total cash and cash equivalents, was \$93.2 million at April 30, 2018, compared to \$107.5 million at January 31, 2018. The decrease in total liquidity is primarily due to seasonal working capital increases.
- Total backlog was \$163.1 million at April 30, 2018 compared to \$178.6 million at January 31, 2018 and \$172.2 million at April 30, 2017.
- On February 13, 2018, Layne entered into a definitive agreement whereby Granite Construction Incorporated will acquire all of the outstanding shares of Layne with each Layne stockholder receiving 0.27 shares of Granite stock for each share of Layne stock. A special meeting of Layne shareholders to approve the transaction is scheduled for June 13, 2018.

CEO Commentary

Michael J. Caliel, President and Chief Executive Officer of Layne, commented, “Our first quarter results were improved over the prior year period and in line with our expectations. We are taking final steps towards a timely closing of the Granite Construction Incorporated merger transaction. By merging with Granite, Layne’s stockholders are expected to meaningfully share in the upside opportunities of a combined company with greater financial resources to invest in growth initiatives and a more diversified, expanded national platform of businesses that is expected to be positioned as a leader across both the transportation and water infrastructure markets.”

- (1) We account for revenue in accordance with ASC Topic 606, "Revenue from Contracts with Customers", which we adopted on February 1, 2018. As a result of the adoption, our prior-period results of operations and backlog have been recast; the impact to the prior year was not material. See our Form 10-Q for the three months ended April 30, 2018 for further details of the impact of the adoption.

Water Resources

Revenues for Water Resources decreased 5.0% during Q1 FY 2019 compared to the prior year period primarily due to office closures during our last fiscal year related to the Water Resources Business

Performance Initiative and lower activity levels in our collector well business. The decrease was partially offset by revenues from our Water Midstream business that began operations in Q2 FY 2018.

The increase in Adjusted EBITDA for Q1 FY 2019 primarily reflects improved project execution, a reduction in general and administrative costs as a result of the Water Resources Business Performance Initiative and the contribution of our Water Midstream business. Our Hermosa pipeline system within our Water Midstream business generated \$1.3 million in EBITDA in Q1 FY2019, consistent with EBITDA performance in our fourth quarter of FY2018.

Backlog was \$41.4 million at April 30, 2018 compared to \$47.9 million at January 31, 2018 and \$62.3 million at April 30, 2017.

Inliner

Revenues for Inliner increased 3.9% during Q1 FY 2019 compared to the prior year period primarily due to higher levels of subcontracted work and increased activity levels for UV liners. These increases were partially offset by lower activity levels in the eastern region due to weather delays.

The Q1 FY 2019 increase in Adjusted EBITDA reflects the increased activity levels discussed above in the current year quarter compared to the prior year period.

Backlog was \$121.7 million at April 30, 2018 compared to \$130.7 million at January 31, 2018 and \$109.9 million at April 30, 2017.

Mineral Services

Revenues for Mineral Services increased by 17.9% for Q1 FY 2019 compared to the prior year period due to increased drilling activity, primarily in the western U.S. and Brazil.

Adjusted EBITDA decreased slightly compared to Q1 FY 2019 primarily due to lower dividends received from our Latin American affiliates.

Unallocated Corporate Expenses

Unallocated corporate expenses reflected in Adjusted EBITDA increased by 21.3% for Q1 FY 2019 compared to the prior year period due primarily to favorable reserve adjustments during the prior year period. Unallocated corporate expenses for Q1 FY2019 declined by \$0.4 million sequentially from the fiscal 2018 fourth quarter due to continuing cost reduction efforts and reduced corporate office headcount.

Use of Non-GAAP Financial Information

Layne's measure of Total Adjusted EBITDA, which may not be comparable to other companies' measure of Total Adjusted EBITDA, represents net income (loss) excluding discontinued operations, taxes, interest, depreciation and amortization, gain or loss on sale of fixed assets, non-cash equity-based compensation, equity in earnings or losses from affiliates, certain non-recurring items such as restructuring costs, and certain other gains or losses, plus dividends received from affiliates. Total Adjusted EBITDA is included as a complement to results provided in accordance with generally accepted accounting principles (GAAP) because management believes this non-GAAP financial measure helps in understanding and evaluating Layne's operating performance and trends and may be useful to investors. Layne management evaluates segment performance based on the segment's revenues and Adjusted EBITDA, among other factors. In addition, we use Total Adjusted EBITDA as a factor in incentive compensation decisions and our credit facility agreement uses measures similar to Total Adjusted EBITDA to measure compliance with certain covenants.

The following table reconciles net income (loss) to Total Adjusted EBITDA:

(in thousands)	Three Months Ended April 30,	
	2018	2017
Net income (loss)	\$ 2,705	\$ (23,461)
Items not included in Total Adjusted EBITDA

Income tax expense	970	1,050
Interest expense	4,408	4,200

Gain on sale of fixed assets	(4,609)	(612)
Non-cash equity-based compensation	699	1,019
Equity in earnings of affiliates	(1,714)	(711)
Restructuring costs	2,806	428
Other (income) expense, net	(99)	163
